

## REFERRALS

Once a therapy (or number of therapies) is identified, Pop-Up Holistic offers referrals and placement with knowledgeable, experienced holistic healers within Pop-Up Holistic's ever- expanding network.

In order to bring you every option for wellness, our network extends from the phytotherapy experts we partner with in supplemental shops, to nutritionists and Ayurveda therapists, acupuncturists to PEMF practitioners, hypnotherapists to reiki masters, biomagnetism, and so on.

## KNOWLEDGE

As greater knowledge is key to enabling a holistic approach to wellness, and achieving optimal health,

Pop-Up Holistic offers educational and informational events: seminars, webinars, workshops, and various collaborations with other holistic practitioners.

These events will be promoted through our social media platforms, so be sure to follow us and join!

A NATURAL NON-INVASIVE  
APPROACH TO HEALING

## WHAT IS POP-UP HOLISTIC?

Pop-Up Holistic is a mobile virtual wellness hub. We offer inexpensive, non-invasive diagnostic testing, counseling, and referrals within our network of professional holistic practitioners.

Our goal is to help you achieve optimal health.

Holistic medicine focuses on the inextricable connection between mind, body and spirit.

At Pop-Up Holistic we help you locate current or potential health issues, expand your knowledge of therapies available to you, identify those most effective towards your unique needs, and personalize a network of holistic therapists tailored to improving your overall wellness.

## DIAGNOSTIC TESTING

Our testing uses bioresonance technology to indicate potential illness or suboptimal health. Addressing potential health issues before they develop is an intrinsic part of preventative medicine.

This intelligent technology can locate issues and precursors to disease prior to symptoms. With these indicators professional suggestions can be made to treat, alleviate, aid or restore.

Supplemental recommendations, dietary adjustments, more in depth diagnostic testing or any number or combination of holistic therapies can be made available.

## COUNSELING

At Pop-Up Holistic we believe integrative medicine that treats the whole person is the most effective.

Eastern and Western medicine both offer significant and powerful solutions, but especially when combined. For this reason, greater knowledge is key to enabling a holistic approach.

Pop-Up Holistic offers counseling of 30 to 60 min sessions to review your health indicators and the holistic treatments available and best suited for you individually.
